ABOUT TOMBOW

Tombow is today's market leader for art, crafts, school, and office products. Serving consumers and businesses around the globe, Tombow was established in Japan in 1913 as a wood-case pencil provider for Japanese students. Since these beginnings, we have upheld a history of unparalleled customer service.

Tombow has grown the company's portfolio to a worldwide provider of art markers, liquid glue, adhesive tape, fine writing pens, correction tape, drawing pencils, colored pencils, and erasers manufactured in facilities located in Japan and Southeast Asian countries. Worldwide operating divisions distribute Tombow branded products in their respective geographies. For more information, visit TombowUSA.com.

● 4 wholly owned sales companies
● 5 wholly owned manufacturing companies

MARKERS

The cornerstone of Tombow's art line is the **Dual Brush Pen**, which features a flexible brush tip and fine tip in one water-based art marker. The brush tip is similar to a paintbrush, creating fine, medium, or bold strokes with a change in brush pressure. The fine tip creates consistent fine lines. The full assortment features 108 colors, including a Colorless Blender Pen.

Also incredibly popular with artists is **Tombow's Fudenosuke Brush Pen**, which is available in a range of vibrant colors — including neon inks. Fudenosuke Brush Pens feature firm, yet flexible tips that allow easy transition from thick to thin lines by changing pen pressure, making it the ideal tool for hand lettering and calligraphy.

TwinTone Dual-Tip Markers are double-sided markers that create thick or thin lines with two tip choices — a broad bullet tip for bold lines or an extra-fine tip for detailed, precise lines. They are perfect for color-coding and decorating planners, journals, and notebooks. The water-based ink does not bleed through most papers, and tips maintain their shape after use.

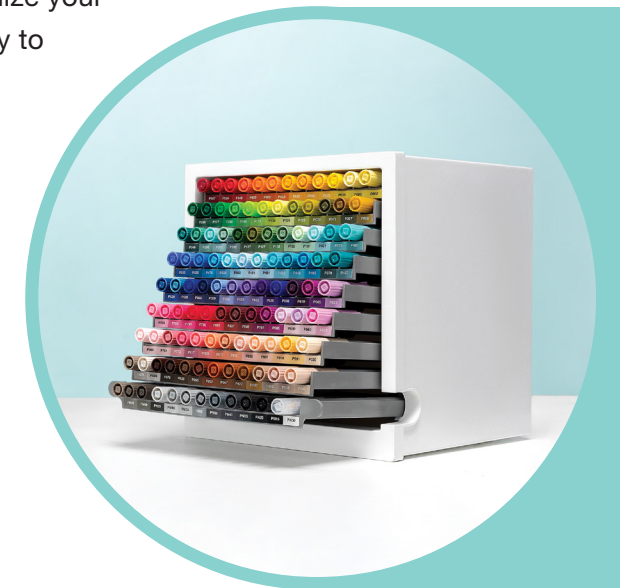

STORAGE SOLUTIONS

The **Tombow Marker Desktop Organizer** is the ultimate in marker storage with a sleek space saving design and 108 slots to store, color-code, and organize your markers. Highly functional with pull out trays that make it quick and easy to find just the color you are looking for.

Another popular accessory item is the **Tombow Marker Storage Case**, which features 108 slots that can store and organize various Tombow products. The easy-to-use accordion style base can be unfolded for desk use, and the snap-on lid features a carrying handle for maximum portability.

Our **Zippered Marker Case** is the perfect storage solution for on-the-go with a zippered closure and carrying handle. It features elastic loops in two divided compartments to store and organize up to 54 markers, pens, and pencils. The interior mesh pouch securely stores accessories. Faux leather exterior comes in black and oyster.

DRAWING PENS & HIGHLIGHTERS

Tombow MONO Drawing Pens feature water-based pigment ink and produce smooth, skip-free drawing and writing with no smudging. Durable nibs withstand firm pressure without bending tips, ensuring steady ink flow. These pens are great for use with colored art markers and colored pencils, producing excellent results when used on drawing, marker, watercolor, and mixed media papers. They are ideal for illustrations, technical drawings, manga, anime, lettering, and journaling. Create precise, detailed drawings with eight tip sizes — 005, 01, 02, 03, 04, 05, 06, and 08.

Our **MONO Edge Highlighters** have dual-tips for multiple uses; highlight large areas with the broad chisel tip, and take quick notes or easily underline words with the extra-fine bullet tip. Their unique design with protective plastic sleeve helps maintain the shape of the tips even when using metal rulers or stencils. The vibrant colors are perfect for color-coding and decorating planners, journals, notebooks, and study guides. And the fast-drying ink doesn't smear or bleed through most papers!

PENCILS & ERASERS

Our **Irojiten Colored Pencils** are beautifully crafted, artist quality, wax-based colored pencils with soft lead that produces rich, creamy texture and smooth, even blending. Sets of 30 come packaged in unique book-style volumes providing pale, vivid, and deep levels of color intensity. With 90 colors available, artists enjoy using these colored pencils to easily layer their colors without waxy build-up.

Tombow **MONO Drawing Pencils** are available in degrees ranging from 6B to 6H. These professional quality drawing pencils are hand crafted with the highest quality materials. Extra-refined, high density graphite is encased in premium hard cedar wood. The perfectly centered lead core is adhered throughout the entire woodcase, making the pencil break resistant and ensuring even sharpening every time.

There are various types of eraser products in Tombow's portfolio, including block-style erasers and pen-style erasers. The **MONO Zero** pen-style eraser is a fan favorite among artists, and the **MONO Sand Eraser** is also especially popular due to its ability to erase ink and colored pencil marks in addition to graphite.

ADHESIVES & GLUES

Tombow's adhesive tape runners are available in permanent, removable, and dot pattern options. Each applies clean, wrinkle-free application with no mess and no drying time.

Our **MONO Air Touch Adhesive** tape runner features Power Net Tape that is both strong and easy to cut. The unique "Air Touch" system helps reduce resistance when cutting tape, making it easy to pull until the very end.

The **MONO Glue Stick**, available in a small and medium size, is a firm glue that retains its shape during use and dries quickly. Great for a variety of paper products, this glue stick provides a strong, permanent bond.

Tombow liquid glues include our dual tip applicator glues — **MONO Aqua Liquid Glue** and **MONO Multi Liquid Glue**, which is also available in an XL size — as well as the **MONO Glue Pen**. Our high performance adhesives include the **Tombow Xtreme Adhesive** tape runner and the **Tombow Xtreme Mounting Putty**.

CORRECTION TAPE

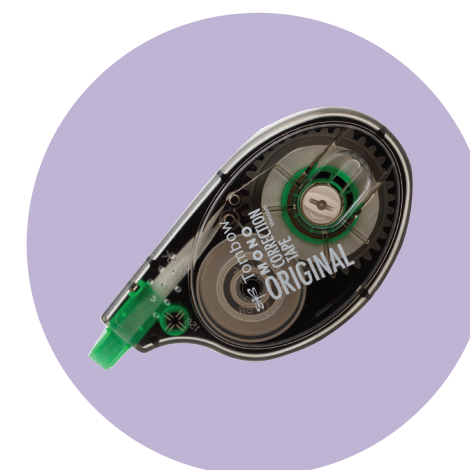

The **MONO Air Correction Tape** is the first ever correction tape using flexible resistance. The Airtouch Technology and improved tape adhesive allows users to easily apply correction tape even with the lightest touch. The MONO Air Correction Tape features a pivoting head and unique tape lock system that automatically stops tape and provides smooth, skip-free application.

Our **MONO Original Correction Tape** is the original single line correction tape in a compact side applicator. This easy-to-use correction tape gives precise application to make instant corrections.

The **MONO Retro Correction Tape** is the same great correction tape and design as the MONO Original Correction Tape, available in four vibrant applicator colors.

And for people who need to make corrections on-the-go, the **MONO Mini Correction Tape's** compact size is perfect for backpacks, planners, etc. The MONO Mini Correction Tape is a single line correction tape in a transparent applicator that pinpoints and corrects mistakes quickly, cleanly, and completely.

WRITING INSTRUMENTS

Tombow writing instruments are designed to meet the expanding demand of today's on-the-go professionals. Product features are thoughtfully crafted to enhance the writing experience and make sure you look good on paper.

The **Reporter Ballpoint Pen** with 3 ink colors in 1 pen is one of our most versatile writing instruments. Highly engineered with unique knock buttons for each ink color, this pen allows color change simply by touch.

Our **MONO Graph Lite Ballpoint Pen** has the synergistic effect of a high-precision needle tip and ultra-low viscosity oil-based ink to create an incredibly smooth writing experience. The high-density textured grip reduces slippage during use, and the long needle tip ensures a wide field of view, delivering an optimum performance.

Tombow's AirPress Ballpoint Pen is the ideal writing instrument for active people. Featuring patented pressurized technology, this pen allows users to write in unusual situations such as writing overhead, in dusty locations, or on wet paper. One click pressurizes the refill for 492 feet of writing overhead.

The **MONO Graph Mechanical Pencil** features an innovative shake-mechanism that allows the user to extend the lead by simply shaking the pencil. It's equipped with a lock mechanism to prevent accidental lead extension, and it includes one of the most popular erasers in Japan, the MONO Eraser.

TAPPING INTO TRENDS

Over the years, we have discovered that the best way to connect with the consumer is to showcase how our products can be used in conjunction with current trends. As you can see below, Tombow products easily fit into today's most popular art and craft trends, making them a top choice for consumers.

OUR EXPERTS

Takao Midorikawa
President and Chief Executive Officer

Have a question about our business as a whole? Takao Midorikawa has worked for Tombow for the past 20 years. His experience includes managing Tombow's export division of 20 countries, and managing internal communications between Tombow's Japanese headquarters and American subsidiary.

Miki Homma
Executive Vice President

Want to know more about our company's Japanese history? Miki Homma began her career with Tombow in Tokyo in 1993, where she worked in human resources, purchasing and international sales management. She has worked for American Tombow in the United States since 2020, where she now manages compliance regulations and communications support services for the international firm.

Cathy Daniel
Chief Marketing Director

Interested in how Tombow markets our products and keeps up with current trends in the art and craft space? Cathy Daniel has 30 years of experience with American Tombow, essentially making art and craft products part of her DNA. She utilizes her expertise of the Tombow portfolio to market current products in the Tombow line as well as develop new products based on consumer demand and market research.

OUR EXPERTS

Colleen Talbot
Director of Sales

Interested in Tombow's sales? Colleen Talbot has nearly 26 years of sales experience, including 7 years in the art and craft industry. She is highly skilled in new business development and building long-lasting customer relationships. As Director of Sales, she focuses on leading the company's sales efforts while expanding the brand's customer base and exploring new sales channels.

Brittany Graham
Director of eCommerce

Want to learn more about eCommerce at Tombow? Brittany Graham joined the Tombow team in 2010 and has held several positions at the company in the sales and marketing departments prior to becoming the Director of eCommerce. She has a passion for researching trends in eCommerce technology and contributes to defining and setting the strategic direction, vision, and business plan of our eCommerce initiatives.

OUR EDUCATION

CREATOR CREW

Tombow's product education efforts are centered around our Creator Crew, which consists of 10 paid consultants who create projects for our blog and social media accounts. We strategically select our team to cover a wide range of craft trends and techniques so Tombow fans can see a variety of ways to use our products.

Our Creator Crew includes artists/crafters who are highly skilled in the areas of art/illustration, paper crafting, planning/journaling, hand lettering, scrapbooking, and mixed media. They are experts in their fields and are able to show a multitude of ways to use our products in order to educate and entertain our audience.

OUR INFLUENCE

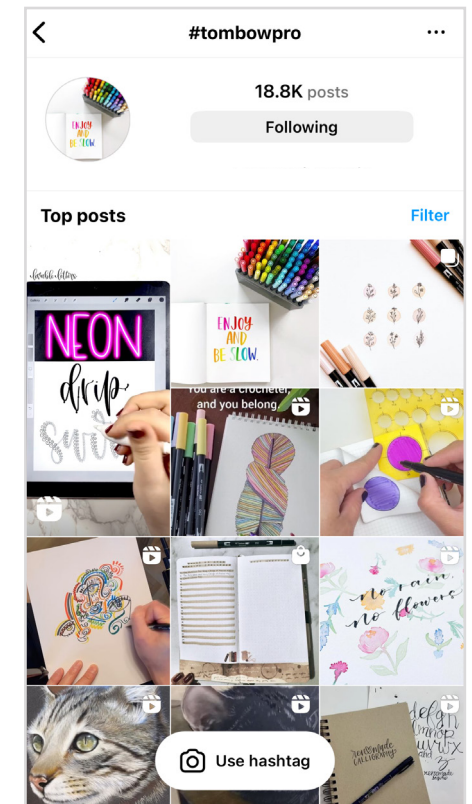

BRAND AMBASSADOR PROGRAM

Our Brand Ambassador Program consists of 40+ social media influencers with a combined reach of 2.5 million+ who create brand awareness through the use of social media. Ambassadors range from hobbyists to professional artists.

These individuals are long-time users of Tombow products who believe in the quality of our brand and want to share the Tombow love with their followers. They do this by using Tombow products in a wide range of mediums after receiving in-depth educational product training from our team.

Our Brand Ambassadors are highly skilled in the areas of hand lettering, art/illustration, and planning/journaling. They have written books, taught classes, demonstrated our products at events, and even appeared on national television using our products.

Email Audrey Hayes at ahayes@TombowUSA.com to schedule an interview.
